

## ALIENS

David C F Wright, PhD

On one website it is stated that 72% of people believe in aliens but offers not the slightest evidence to support their existence.

Another statement made by some is that aliens seeded the human race but, again, all the articles about this do not supply the tiniest slither of evidence. In other words, it is claimed the human race was not the product of evolution or Divine Creation but the work of aliens who are described as those who came from the stars and it is further asserted that it is to these ancient astronauts that we will find the answers.

But, as we have said, there is not the slightest evidence of any kind whatsoever that there are aliens or ancient astronauts. And it is interesting to note that many people who say that they have been abducted by aliens have now recanted and admitted that they were lying to gain fame by sensationalism and in order to earn money.

The idea that aliens started the human race has absolutely no foundation in truth. It is said that aliens are extraterrestrials with superior knowledge of science that came to Earth to start the human race and are forever changing our DNA and the course of history.

But, again, there is not the slightest scrap of evidence to support this. What is said by alienologists is that different types of aliens came to various parts of the world and that is why we have peoples of different colours and culture. This, claim alienologists, is proof of aliens having seeded the human race. The other so-called evidence is that if humans can go to other planets, why can't aliens travel to ours? But that is not evidence. It is a false syllogism.

For those who do not know what a false syllogism is here is an example

All atheists have brains  
David Wright has brains  
David Wright is an atheist.

Utterly wrong!

Erich von Daniken in his book *Chariots of the Gods* writes that all our technologies and religions were established on Earth by aliens. Aliens began Judaism, Sikkism, Hinduism, Christianity, Shinto and all the rest. If that is so then they are responsible for all so-called religious wars. Aliens were divisive.

If, as some assert, the Bible and Christianity is nothing but rubbish and lies, then the aliens are responsible for such deception.

He goes on to say that artefacts which have been found prove that aliens were here; yet he offers no proof and archaeologists refute all that he says with proof.

It is said that aliens built the figures on Easter Island, Stonehenge and the Egyptian Pyramids because man could not have designed or constructed them. Some say that aliens existed because of a medieval map of the world, known as Piri Reis, which shows the earth as seen from space, and was therefore drawn by aliens.

Stonehenge was built by three tribes of human beings. Firstly, by Neolithic agrarians around 3000BC. Then, by the Beaker people around 2000 BC and then the Wessex people around 1500BC. There is ample evidence to support this and proof that Stonehenge was not built by aliens

The Egyptians pyramids were built by the Egyptians with their own labourers and the labour of slaves.

This is indicated on the drawings and hieroglyphics in the tombs themselves which also highlights the problem of being able to feed all the labourers.

Men also built other wonders of the world such as the Temple of Artemis at Ephesus, the Mausoleum of Halicarnassus, the Colosseus of Rhodes and so on. There is indisputable evidence of this from archaeologists and history and I invite you to read about it in scholarly books.

There is absolutely no evidence that aliens built any of these edifices.

Pyramids called ziggurats existed in Babylon by 2900 BC. We do not read anywhere that aliens built these, so why are the Egyptians pyramids singled out? There were pyramids in Abraham's time which have been excavated.

It is also known that maps of the world, or parts of the world, have been drawn from 'looking down' and have been in existence long before medieval times.

The vast majority of alienologists, psychics and spiritualists dismiss the Bible as a load of rubbish and nothing but lies and claim that God did not, and does not, speak to people and that the Bible is not the Word of God but the words of men. All the Bible is garbage.

And yet they use Ezekiel chapter 1 as proof of aliens visiting the Earth! These visitors were not aliens in spaceships but angels in chariots! Can't people read?

In Mayan culture there are writings of glorious beings descending from the sky with flying rings like wheels of chariots.

Another website, advocating the existence of aliens, states that God did not create life and, although the Bible is total rubbish, Adam and Eve did eat of the forbidden fruit. They claim that eat is an euphuism for sex and that God had sex with the Devil and that Satan, who is an alien, is still interfering with our DNA.

They also quote from the Bible, which they assert is complete rubbish, where it says, "I will greatly bless thee and multiply thee as the stars of heaven," and say that the stars of heaven are aliens. If only they knew their Hebrew Bible. Stars of heaven refers to quantity, not aliens.

On some websites, you can see what are said to be pictures of aliens. But they could be pictures of deformed human beings such as the Elephant Man. Having worked for the coroner and pathologists, I can testify that I have seen deformed bodies including people who were big in life now shrunk to be tiny and deformed and with slit eyes. I have seen other bodies covered with tumours often the result of syphilis. There are diseases which deform the body and cause it to look like these alleged pictures of aliens such as the disease of rhinoplasty where the nose rots away. Some of the pictures of aliens could be humans with deformities and suffering malnutrition.

All the pictures of alleged aliens are not convincing. In fact, some sites prove that they are fakes.

What is even more alarming, because of its fraudulence, is that some pictures of aliens are exactly the same as those in science fiction films which were filmed much earlier than the taking of these pictures!

This has been investigated, and 36 pictures of so-called aliens are taken from movies made years before.

Of course, it is said that aliens come to Earth in spaceships or flying saucers. Yet there are no pictures, which we have seen, of a landed UFO and the aliens descending from it or entering it.

As to the alleged pictures of flying saucers they are all airborne. Some are so unclear as to make any

decision impossible and some look like stealth aircraft.

Someone who believes in UFOs are called ufologists!

It has also been said that cave drawing of earliest man include pictures of aliens in spaceships noted because they have circles of globes around their heads sometimes of silver colour and sometimes of gold colour.

It is generally accepted that these drawings were messages and communications often related to hunting. The silver globe meant by the light of the moon and the golden globe represented daytime. This is a vast subject and merits another essay.

A cult refers to a groups of people whose beliefs and practices are strange and unproved. The word may first have been used to refer to so-called Christian groups who deviated from the accepted truth to form new groups in which their own doctrines were paramount.

But a cult also refers to other groups of people who have beliefs and practices which are strange and unproved. Cults are dangerous. They control the mind. This is brain washing. They prevent the acceptance of truth and insist that their beliefs are true and all others are wrong. The leaders and adherents of cults become very aggressive and hateful. In very many cases their hatred of the Bible is excessive to the state of madness in what is known as Explosive Anger Disorder a very serious mental condition; and they claim that the Bible was written by the Church and is nothing but lies... but the Bible was written before there was a church!

The aggressive attitude of some of these people and of those who claim that the Bible is total rubbish cause the end of friendships, division between families and other major troubles and so these trouble makers should be avoided. But many of them know deep down that they are wrong and are challenged, but do not have the decency to admit they are wrong and that they are the cause of endless and unnecessary trouble. Anger can lead to violence and violence to war.

I had a telephone friend for just over two years and we talked about music. Latterly, when he found out that I was a Christian he would from time to time rant at me for being idiot because I believed in the Bible and in Jesus Christ who was a fictitious character! No friend talks to a friend like this and his attitude showed the mental condition of Explosive Anger Disorder!

(See article on [Nihilism](#))

What is clear is that many spiritualists, psychics, alientologists and ufologists and this previous friend are out to deny the God of the Bible and with a hatred that is both unreasonable and erroneous with their claim that the complete Bible is garbage and lies!

However, not everyone who believes in aliens and UFOs are offensive. A recent television programme of three hours in length told us that UFOs existed and cited many references but gave no evidence.

Alientology and ufology are cults and dangerous.
